

**UNCLE JIMMY CANNON.**

**THE ONLY LIVING SURVIVOR OF THE ALAMO'S FALL.**

**His Wonderful and Romantic History Since That Terrible Massacre—Guide, Scout and Interpreter—His Life Among the Wild Untutored Savages.**

[Special Correspondence.]

MILWAUKEE, June 6.  
It will be news to the general reader to learn that the sole male survivor of the massacre which followed the fall of the Alamo is now an inmate of the National Home for Disabled Veterans here this city. Accounts of the massacre state that one woman, a servant and one child were all who escaped.

The child, now a man of sixty, is Capt. Wm. James Cannon, or, as he is more familiarly known all over the western states, "Uncle Jimmy" Cannon, guide, interpreter and Indian scout. The old man bears on his person marks of sixteen wounds received at different times. He is now suffering from a severe bullet wound in the leg, received last year while down with Gen. Miles hunting Geronimo.

He is slightly under six feet in height, stoutly built, with a pleasant face framed in by a mass of snow white hair. He recalls dates and places with the accuracy of an encyclopedist. He has with him a bit of the wall of the Alamo in front of which lie buried his mother, two sisters and a brother, while on the hill not far away lies the body of his father, all victims of the fury of the battle.

In a recent interview "Uncle Jimmy" said to the writer: "I can remember the scenes connected with the fall of the Alamo distinctly. I was a boy of 7 at the time. I had been given by my parents to a Mexican woman to be taken care of. When the Mexicans came this woman sat holding Col. James Bowie's head in her lap. I was sitting by her side. After the others had been killed a Mexican soldier came into the room, put his gun to Bowie's forehead and fired.

The blood and brains scattered all over the room and some went into my face. As soon as Bowie was killed the Mexican woman took me and hid me in an old chest. She tied me up and took me back to the troops, for the Indians were between. So I took another route for the fort. Finally the pain of my wound nearly blinded me. I knew by the signs we were near the fort. I said to the girl: 'Little girl, look out for us.' She said: 'I will.' And so I looked and said: 'Yes, there is quite a number of men following us.' I knew they were Indians, and told her to stop at a big log we would reach presently and I would drop off and hold them back, while the horse would carry her right into the fort. But the horse galloped well clear and got away. Now will die speechless again."

A short time afterward we met a small party with an escort under command of Sergt. Colt of the Second Cavalry. Seeing them the Indians gave up the chase." It was through lung trouble brought on by the arrow wound that Uncle Jimmy was forced to leave the fort with Custer on his last ride. The old man is firm in the belief that if he had been with him Custer would never have been led into the trap. During the war Uncle Jimmy served with the Seventh Cavalry.

GEORGE FICKERINO.

"Uncle Jimmy" commenced his career, after escaping from the Indians, by taking part in what he styles, with grim humor, the "bean pulling expedition" of Col. Donahue. Just previous to the breaking out of the Mexican war that officer collected together a company of what would have been known twenty years later as "bushwhackers," and started down to the Mexican border for a raid. To this troop young Cannon joined himself. The company, after raking out a few days, were driven off, and all killed but forty-five, in which number were Cannon and the Mexican half breed guide.

"The next morning," said Uncle Jimmy, "Hentzen carrying an arroba jug, followed by a man with a blanket, came over to where we were. The jug was filled with black and white beans. This was placed on the ground near us and the blanket laid a few feet away. Then we were blindfolded and the hand loosened. We were marched over to the blanket where the bean was dropped, then the hand was tied back again and the bandage taken off. In front on the blanket was the bean. If black it meant death, and the poor wretch who drew it was marched off to one side. If the bean was white he was taken to the other side. In this way fifteen of the fellows were selected to be shot, and about ten were left at once.

The corpses were stripped and rolled into a bayon near by. The thirty lucky ones were paraded and after they had stripped of everything they took a fancy to, our captors allowed us to leave. I knew they did not mean to let us go clear, but were just playing with us as a cat with a mouse. So when we came to a place where the grass was about waist high the guide and I dropped down and wormed our way off to one side. The others went on and in less than half an hour in our hiding place we heard volleys of musketry. We knew it must come from the Mexicans, as our men had no guns. In a few minutes the firing ceased and all was still. Every one of the twenty-eight men had been killed. The guide and I waited until dark and then made for an Indian tribe in that vicinity, with whom we remained until we could get into touch with friends. When the Mexican war broke out I enlisted in the first company formed, Capt. McClellan's, and served through the war."

After the war closed "Uncle Jimmy" entered upon his career as guide and interpreter, in which capacity he found employment up to a year ago.

During his time the old man has been the means of rescuing nine women and children from Indian captivity.

The rescue of Miss Brand in 1870, and that earlier of Miss Mortimer, were made under circumstances which lend to them the color of legends when I succeeded in releasing her near where Pueblo now stands. I came up to the tribe one evening just as the squaws were preparing to burn the girl, Albion, the elder son, wanted to marry her. This made the squaws mad. So they took Miss Mortimer and tied her to a small tree about 300 or 400 yards from the village. When the Indians thought the attack was from another tribe, I rode up to the camp and got the girl loose, and as I did so I said: "Run girl, run." Without hesitating, she obeyed orders and we ran and jumped into the river. Luckily for us, the Indians thought the attack was from another tribe.

I took Miss Mortimer to Co. Bent's trading post and left her. The last I heard of her she was still alive and living near Bentonsville, Ark.

"About Miss Brand? Well, she and her brother started out of Fort Laramie one day in 1870 to go fishing. When about a mile from the fort, the boy was jumped by a band of Sioux Indians. The boy was killed and the girl, then about 15 years old, was taken prisoner. A wood party from the fort discovered the remains of the wagon, which the Indians had burned, and gave the alarm. Gen. Reynolds sent a company of the fort and he immediately started in pursuit of the Indians. I was with him as guide. We expected to come up with the Indians on the divide, but found they had taken water there and gone right on. I followed the trail and located them six or eight miles up. I rode back and told Gen. Reynolds that if we would hold the troops where they were for me to fall back I thought I could get the girl. He agreed to my plan, and leaving the soldiers I rode on ahead. When it was dark, I worked my way up until only a little hill was between me and the horde.

## SOUTHERN CAL. LAND BUREAU

## GRAND DISTRIBUTION OF LOTS

REECE'S :: ADDITION :: TO :: OCEANSIDE!

TO TAKE PLACE

MONDAY - - - - - AUGUST 1, 1887.

230-LOTS-230 ~~TAT~~ \$150-EACH-\$150.

WITH A CHANCE OF GETTING ONE HOUSE WORTH \$1000, ONE HOUSE worth \$800, one house worth \$700, one house worth \$600, and one of five houses worth \$500 each.

REECE'S ADDITION adjoins the beautiful town of Oceanside on the northeast, one-half mile from the beach, just far enough to be protected from the cool winds of the ocean, yet commanding a beautiful view of the water, making it the most delightful and desirable point for residence.

The addition lies three or four hundred yards east of the Oceanside Water Company's pipe-line, and the company agrees to put water upon the tract as soon as building has commenced.

OCEANSIDE is destined to be the Cape May and Long Branch of the Coast. It is situated on the California Southern Railroad, forty miles north of San Diego. Grading has already begun on the Santa Ana branch out of Oceanside, making this the junction of the two roads. It is also the terminus of the San Diego Central, and is on surveyed route of Southern Pacific, and is rapidly building up. There are now some six or seven hundred inhabitants and about fifty places of business.

There are now two good hotels in operation and a new one nearly completed, which will cost, without furniture, in the neighborhood of \$30,000. Plans for a still larger and finer one are in the hands of the architect. A large two-story brick, 100 feet square and two stories, is now under construction for a bank, on the corner of Hill and street.

Work will begin on the wharf the coming week. It is to be 1500 feet long, with 35 feet of water at low tide. It is to cost \$30,000, and all the stock is taken. A syndicate of Eastern capitalists has bought all the water at Monarata and Fala, and are at work now piping the cool mountain water into the town of Oceanside, and the pipe-line will cross or pass very near to the addition.

Reco Bros. bind themselves to build the above-described houses ready to hand the key to the lucky owners in the distribution at the same time with the deed. For further particulars and maps inquire of

REECE BROS., OCEANSIDE, SAN DIEGO COUNTY,  
Or MATLOCK, NEWTON & MATLOCK, General Auctioneers and Real Estate Agents, 111 W. First St., L. A.

TERMS—\$50 down, \$50 on day of Distribution, and \$50 in 8 months, without interest, on delivery of deed.

Look out for

## FULTON WELLS!

THE COMING PLACE!

Save your money and invest. The particulars in a few days.

A. S. ROBBINS, 9 N. Main st.

## Long Beach Booming!

G. W. ELWOOD, Long Beach, Cal., Sells the Property.

A Positive Proof That Cancer  
Can Be Cured.

Mr. A. R. Shands is a well-known farmer,  
whose residence is in Spartanburg, S.C. He is  
a man of means and education. His stand-  
ing in his community is A 1 for truth and  
probity. While Mr. Shands refrains from  
using the word cancer, the facts he gives set-  
tles the question of the nature of his disease.  
He says his physicians never said the sore was  
a cancer, but that they all wanted him that  
they might get a good price for it. He has had  
a cancer. At any rate none of them could  
afford Mr. Shands the slightest relief, and finally he was cured by S. S. S., the finest and  
only absolutely certain blood purifier in the  
world. Below is Mr. Shands' own letter about  
his cure. Let any one suffering from a similar  
ailment write to Mr. Shands and learn from  
him the exact effects of the wonderful med-  
icine.

a man of means and education. His stand-  
ing in his community is A 1 for truth and  
probity. While Mr. Shands refrains from  
using the word cancer, the facts he gives set-  
tles the question of the nature of his disease.  
He says his physicians never said the sore was  
a cancer, but that they all wanted him that  
they might get a good price for it. He has had  
a cancer. At any rate none of them could  
afford Mr. Shands the slightest relief, and finally he was cured by S. S. S., the finest and  
only absolutely certain blood purifier in the  
world. Below is Mr. Shands' own letter about  
his cure. Let any one suffering from a similar  
ailment write to Mr. Shands and learn from  
him the exact effects of the wonderful med-  
icine.

Mr. A. R. Shands is a well-known farmer,  
whose residence is in Spartanburg, S.C. He is  
a man of means and education. His stand-  
ing in his community is A 1 for truth and  
probity. While Mr. Shands refrains from  
using the word cancer, the facts he gives set-

## EDITIONS OF THE TIMES.

PUBLISHED EVERY DAY, MORNING INCLUDED.

SERVED BY CARRIERS:	
DAILY AND SUNDAY, ONE WEEK	\$ .25
DAILY AND SUNDAY, ONE MONTH	\$ .35
DAILY AND SUNDAY, ONE QUARTER	\$ .45
DAILY AND SUNDAY, ONE YEAR	\$ .55
WEEKLY MIRROR, PER YEAR	\$ .60
WEEKLY MIRROR, PER YEAR	\$ .60

THE TIMES is the only morning newspaper in Los Angeles that owns the newspaper right to publish. We have the telegraphic "right" of the Associated Press, the greatest news-gathering organization in the world, our franchises having recently been renewed for a long term of years.

SUBSCRIBERS, when writing to have the address of their paper changed, should also state the former address.

CORRESPONDENCE solicited from all quarters. Timely local topics and general news may be sent to the office of the Times only, write plainly, and send real name for the private information of the editor.

The Times  
BY THE TIMES-MIRROR COMPANY,  
ALBERT MCPARLAND,  
Vice-Pres't, Treas'r, and Business Manager.  
WM. A. SPALDING, Secretary.

SPECIAL ANNOUNCEMENT.  
Our Forthcoming Semi-annual Trade Number of  
"The Times."

On the 1st day of July (instead of June 25, as heretofore announced), THE TIMES will issue its SEMI-ANNUAL TRADE NUMBER, a 16-page sheet, containing a complete business review of the first half of the year 1887, embracing real estate, commercial, manufacturing, banking, railroad, shipping, post-office and other statistics of progress in Los Angeles and Southern California.

Besides which there will be a large volume of telegraphic, local, editorial and miscellaneous matter, and, in addition, a history of THE TIMES and THE MIRROR and an article descriptive of the new Times Building. The paper will be illustrated with cuts of the interior and exterior of the building, and with diagrams showing its arrangement. The several departments of the newspaper, job-printing and binding business will also be canvassed, so that a very fair idea of their interesting features may be obtained.

An edition of 15,000 copies is guaranteed. Here is an excellent opportunity for advertisers to "make a strike."

Those who wish to secure advertising space in, or extra copies of, this especially desirable publication should communicate at once with the business office of THE TIMES. Rates will be given on application.

## TIMES TELEPHONE.

People who have occasion to call upon THE TIMES editorial rooms by telephone will please note the fact that the number has been changed to 674. The number of the counting-room remains the same as formerly—29.

For the Times-Mirror Printing and Binding House, Kingsley & Barnes, Managers, ring up No. 453.

RATTLESNAKES are the latest occupants of stables in San Diego. San Diego feels that she is nothing unless she is a little ahead of the rest of the world.

An electric road in the old town of San Diego! It will start those sleepy old adobe from their foundations, and disturb the dreams of the Siurians who inhabit them.

DENVER is setting a good example for Los Angeles. She has already commenced excavating for a \$1,000,000 hotel. And yet she has not the need for it that immigration-flooded Los Angeles has.

OFFICIAL figures give the United States a greater railway mileage than that of all the rest of the world put together, while its telegraph mileage is very nearly one-fourth of that of the combined telegraph mileage of the world.

SECRETARY BAYARD calls the Grand Army "the professional office-seeking soldier organization." "It is a noticeable fact," observes an exchange, "that it brought this office-seeking Administration to a sense of its misery in short order."

SANTA BARBARA proposes to try the titanic rock for street-paving. One hundred tons are now awaiting shipment to that city from the San Luis Obispo mine. Santa Barbara is growing ambitious. The "boom" has fairly reached her.

RICE grapes were in the market in Yuma on the 6th of June. No wonder that the fellow accustomed to a climate hot enough to ripen fruits in such haste had to send back for his blanket, even from his torrid quarters on the other side of the Styx.

RIVERSIDE takes an account of stock and finds that she has "thirty odd thousand acres of the best fruit and farming land in Southern California," all with facilities for irrigation or naturally moist, and not requiring it. And, very naturally, Riverside concludes that she has still room to grow in, and might as well as a little bigger. THE TIMES' Riverside correspondent, "Wallace," gives some interesting facts and figures today.

THE standing of the President among old soldiers is no longer a matter of doubt. With his hand upon the rebel flag, ready to return these insignia of disloyalty, he felt the throb of their loyal pulses, and he will have all the future in which to regret his mistake. The old boys will not forget Grover, nor will they fail to secure a "substitute" for him in the national campaign next year, whom they will send to the front. Cleveland has been successful in his political suicide. But before he died he heard it thunder.

## Educational Reform.

Boston has had her eye for some time on certain educational abuses common to our public-school system, and now she proposes to set about reforming them. The mental gymnastics which the children are compelled to go through in order to reach the solution of the most impractical problems often given them, are to be done away with.

Arithmetical as it is now taught is a horror to many children. The Boston School Board has been wise enough to discover that its being so is not without reason, and they have set themselves to work to prune, condense and simplify the science of numbers, so that the child shall be wiser when he is through with the study than when he began.

The ordinary child under 14 has not sufficient capacity to follow clearly all the abstruse reasonings necessary for the solution of the most difficult problems given in our ordinary text-books, and, recognizing this fact, the school board proposes to throw out mensuration, compound interest, cube root, equation of payments, exchange, compound proportion and compound partnership. If the child is disposed to study these at home or elsewhere he can do so, but a lack of acquaintance with them will not affect his standing before he reaches the higher grades where it is proper that he should be taught them, and he is old enough to understand them.

Boston, in intellectual foresight, takes the lead. This is a step in the right direction, and it will be well for the children if other communities are disposed to take kindly to this reform. Forced mental growth is injurious. The capacity of the child should be considered in the requirements made of him, if we would have intellectual strength and vigor in their later years. There is too much cramming in our present school system. Children are set to work in cube root and compound proportion when really their mental powers do not warrant their doing anything outside of multiplication and division. In this way they come to hate mathematics, and are set down as dullards, when they are simply discouraged and disheartened.

## Consider It Desirable.

Commenting on the projected extension of the Carson and Colorado Railway to a connection with the system of Southern California, the Sagebrush Stockman, of Reno, Nev., says:

The great benefits that would accrue to this section cannot at present be adequately estimated. Nevada's lagging industries would receive an impetus at present little dreamed of, and, in time, a most desirable result would be secured. The time is ripe to gain no more than will Nevada, and it is no more than right and just that our people should be working in union with the merchants of that city.

Hugh Vail, president of the Santa Anita Land and Cattle Company, of Nevada, writing to the same paper from this city, says: "The feeling of the people here is that great benefit would accrue both to this southern country and to Nevada if the line were extended to connect with the Southern Pacific at Mohave, thus giving it an outlet where now it has none at all. There is no doubt that large quantities of fruit would be shipped into Nevada by this route, and we in return could send our surplus beef and agricultural products, which are now frequently a drug in the market, owing to lack of facilities for transportation."

## A Flurry in Stocks.

A panic in the New York stock market yesterday came as near precipitating a Black Friday as anything that has occurred there since the last big crash. Fortunately, the brokers saved themselves from utter demoralization, and prices swung back to something like the normal figure. Many operators were doubtless shorn of their all in the brief time that panic reigned; there will be a lot of bankruptcies, some beggarly, broken-spirited men, some suicides, perhaps, and the stock market will jog along.

The time was when the financial and commercial interests of the whole country would have been jeopardized by a flurry like that of yesterday, but fortunately the country has a bigger balance-wheel of prosperity now, and the machine runs steadily along, despite the jerks and jolts of speculation.

Fortunately, the stock dealers are disposed to go crazy that is the time for sensible people to let them go right along and do themselves up to a Queen's taste.

Mrs. Zimena Conant, the wife of one of the most prominent citizens of the United States at the time of his death, eight years ago, arrived in Los Angeles by steamer yesterday. Mrs. Conant is 87 years of age. She is visiting relatives in this city.

Seeing the Elephant.

One of Orange's prominent citizens, named Stephen Baker, came to this city the other day to see the elephant, and he has seen it to his heart's content. He was taken to the City Hall and looked up at the Oregon Colossal before last night, and last night he came very near scaring the life out of the other inmates of his cell. He was taken with the jims-jams, and it took three or four officers to hold him down.

Vega Better.

Juan Vega, the wounded Mexican, was a good deal better yesterday. The Verduros, who were arrested at the time of the assault, will have their examination as soon as Vega is able to appear in court.

The Czar's Ambition.

According to the *Times*, to "split the Czar's highest aim is to be crowned Emperor of Asia" on the site of the Holy Sepulchre at Jerusalem. The Crimean war had its origin in the quarrels over the holy places in Palestine, and was a continuation of the conflict between East and West, which Cradlers left with a smile.

Every step the Russians toward Constantinople is thus a step toward Jerusalem. It is of great significance that the Emperor Alexander III confides much more upon the power of religious influence than either the military or diplomatic.

He wishes to secure official and ostentatious consecration of his religious authority, and to have his position emphasized as the supreme protector of the eastern churches and the orthodox faith, and so rally all the Greek-Orthodox churchmen.

According to the *Times*, the Czar as the Commissary and Justinian of the modern era, this bold project has been long in preparation, never lost sight of in any diplomatic movement, and no sacrifice of money is thought too great to secure this end.

Number of the Presidents and Cal. Monuments.

**STOCKS TUMBLE.**

**A Report of Jay Gould's Sudden Death**

**Starts a Panic Among the Denizens of Wall Street,**

**And Nearly Precipitates Another Black Friday.**

**A Rally Towards the Last, and Recovery Nearly Nominal Price—A Good Many Operators Hurt—Speculative Stocks Still a Shade Off.**

**By Telegraph to The Times.**  
New York, June 24.—(By the Associated Press.) Reports were circulated today that Jay Gould was dead and that there had been a falling out between Jay Gould and Russell Sage and Cyrus W. Field. At the same time heavy blocks of Manhattan stock were offered, causing the stock to fall from \$85 to \$80. The room was crowded with brokers and the decline brought out selling orders in all classes of securities. Western Union began to break about 11, and in fifteen minutes dropped eight points. The fall in other stocks was correspondingly great. The greatest excitement was in the loan crowd, where there were many inquiries for loans on call, but parties prominent in loaning money refused to lend any amount, no matter how small. The excitement reached its greatest height shortly before noon, and the market then was developed. No attention was paid by brokers to the fluctuations in the sales made by them, the quotations were so wild that sales were sometimes from 5 to 10 per cent apart. Stocks bought near the opening were thrown over when the break occurred, and this self-increased the general panic. Wall street was the scene of much excitement, that had been witnessed since the May panic of 1885. No failures are announced.

**GREAT EXCITEMENT IN STOCKS.**  
New York, June 24.—There is great excitement at the Stock Exchange. Prices began declining rapidly about noon. It is understood that the break was caused by the report that Jay Gould was dead. Western Union fell from 11 to 10, and in recovering, Gould is at his office, but refuses to see reporters. The flurry now seems over, as the list seems to be going up to former prices.

**STIFFENING UP.**  
New York, June 24.—The only failures so far reported resulting from the break in the stock market were at the Union Consolidated Exchange, where 30,000 shares of various stocks were sold for account. The exchange, who were unable to respond to the call for contributions among some small brokers, were closed-out. Money is ruling stable at 1/4 per cent, a day, and interest equal to 96 per cent, per annum. When the delivery hour passed at the Stock Exchange, with the exception of one or two, the street became more confident, and buying orders were received from all sources. The bears attempted to cover at the same time that the big operators began to buy, and the consequence was that a sharp rally was made during the panic of the morning was realized. Trading for the day was lively, the whole list having declined and rising from 5 to 20 per cent. The feeling is now one of more confidence, and it is generally thought that the losses are widely scattered. The market is now confined to the city as in previous panics. Money is still scarce, even at the high rates charged, and this is considered the worst feature of the market. Murphy has announced that he will settle all debts in full.

9 a.m.—The market closed firm but quiet, at an advance.

**ANOTHER ACCOUNT.**  
New York, June 24.—The stock market was subjected today to one of the heaviest drives ever known in its history, and although its duration was short (about an hour and a half), the depression caused in prices during that time was unprecedented. The market early in the forenoon gave no indication of anything unusual, and though prices were heavy, the same quiet business usual of late was transacted. Suddenly, shortly after 11 o'clock, the attack was begun, the Gould stocks being the particular object of attention. Manhattan was quickly marked down 15 to 18%. Missouri Pacific from 103% to 92, and Western Union from 75% to 67%. Rumors were circulated at the same time of a disagreement between Gould, Field, and Sage, and later that the following report of the death of the famous general.

The money market was not neglected, but rates were marked up 5/8 and interest. A tremendous selling movement began, which soon became panic. The drops were prices declined to fractions, and rates were continued to fractions, of 2 or 3 per cent at a time. The story in regard to Gould soon met a denial, and the bears were influential in stopping wild sales of securities. Other rumors which were set about, that the market was buying soon turned the tide of affairs. Recovery followed for all except a few of the conspicuously weak stocks, among which Manhattan and Richmond and West Point were most conspicuous.

Stocks were not shares to any great extent in the movement, which was confined to the leading speculative stocks of the day. The total business for the day was the largest for any day so far this year, amounting to \$67,070 shares. The entire active list is lower, and Manhattan is the only stock to fall below 100. The morning's break was the chief topic this evening among Wall-street men, who gathered in the up-town hotels after dinner, and the general feeling seemed to be that the panic and depression was only temporary, and that the market would soon take an upward turn.

**Heading Off Dominion Dodge.**  
LOCKPORT (N. Y.), June 24.—The recent order of the Dominion Government to Canadian customs officials at Windsor, Ont., to make a record of all Americans who reside at Detroit and vicinity who daily cross the line to engage in work, has led to a counter move by the collector at Niagara Falls and the suspension bridge. This morning when Canadian lawmen, with their equipment on this side reached the frontier, United States deputies demanded their names, ages, residence, occupation and where and by whom they were employed. During the day deputies were served upon every employer of these from whom it is believed could continue to employ such foreign labor after July 1st the District Attorney would be recommended to proceed against them according to law.

**The National Opera Company.**  
New York, June 24.—Notwithstanding the troubles of the National Opera Company it is authoritatively announced that all creditors will be paid in full, and that the National Opera Company will be in the amusement field next season. In fact, several contracts have already practically been closed. Mr. Thomas held a conference with Mr. Lawrence and Mrs. Thurber this week. The future plans of the corporation were fully discussed, and a suitable arrangement was made. This will be headed as manager conductor, and Ludwig and other principals have been reengaged, together with the choristers and thirty-odd members of the ballet. Among those who will be in the company next season are Hinrichs, Beyran, Hock, Godchaux, Maries and Juck.

**Crooked Work Discovered.**  
SPRINGFIELD (Ohio), June 24.—The discovery has been made that Whately, Faser & Kelly, prior to making a motion to have a receiver appointed, gave to the Champion Machine Company an indemnifying mortgage of half a million dollars on

all the property owned by the firm. The manager states that the firm borrowed this amount from the machine company in promissory notes, on which they are negotiating loans. Developments indicate conclusively that the nature was pre-arranged that the failure was pre-arranged two years ago. Whately assisted Vice-President Harper, of the latter institution, out of a serious difficulty with accommodation paper, representing an immense sum. The result was that the receiver's fall was imminent he disposed of this paper to New York and Cincinnati brokers, without Whately's knowledge or consent. These brokers immediately pressed Whately, and this caused yesterday's action.

**Cleveland Will Come.**  
NEW YORK, June 24.—A Washington special to the Tribune renewes the statement that President Cleveland will visit the Pacific coast. Mrs. Cleveland will go to Madison, Wis., to visit the family of Postmaster-General Vilas, and the President will join her there the second week in September, and after visiting Chicago, Detroit, and St. Louis, they will go to the Pacific coast.

**Sawmill Burned.**  
WINONA (Minn.), June 24.—Laird & Norton's sawmill was burned this morning. The loss is \$100,000.

**WASHINGTON.**

**Representative Butterworth Stands by the South American Telephone Scheme, but Will Retire from Its Presidency.**

**By Telegraph to The Times.**  
WASHINGTON, June 24.—[By the Associated Press.] Representative Butterworth said today that he had not resigned the presidency of the American Telephone Company, but contemplated doing so whether everything turned out satisfactory or not, as he finds he did not have time to attend to the business. He would say that the Venezuela concessions are worthless, owing to the discovery that it is impossible for the company to secure the right to operate the telephone in a few large cities, and said he would take nothing for granted, but would await official advice from Venezuela. In the meantime, he would not allow the company to make a single contract. Stockholders, he said, had been slow in making applications for the return of their money, and in consequence, another letter had been sent to them, offering to redeem the stock. The directors will hold a meeting tomorrow from 1 to 4 p.m., and then all stockholders who have not returned their money will be paid. The mail from Venezuela will be here then, and it will be decided just what course the company shall pursue.

**IMPORTANT ARMY ORDERS.**

An order will soon be issued from the War Department making the following important changes in stations in the army, which will go into effect as soon after the 1st of July as possible.

The members of the band and four drummers of the Spanish Cavalry will be transferred from Ft. Meade, Dak., by marching to Ft. Riley, Kan.

The headquarters of the Fifth Cavalry, now at Ft. Riley, will be moved to such posts in the Indian Territory as the commanding officer of the Department of the Missouri may direct. Two of the troops of the Fifth Cavalry, now at Ft. Riley, will go to Ft. Sill, I. T., and the other will give to Col. Forsyth of the Seventh Cavalry, command of the Cavalry and Artillery School lately established by Congress and for the construction of which \$200,000 is now being expended.

The First Cavalry will be transferred by marching to the Department of Texas, then until all the troops of the Third Cavalry will exchange stations with the First Cavalry, and the Third will put the Third Cavalry on Lower Rio Grande.

The Twelfth Infantry, now stationed in the Department of Texas, will change by rail with the Eleventh Infantry, now in the Department of Dakota, with headquarters at Ft. Sully.

**POSTOFFICE STATISTICS.**

The total number of salaries of postmasters received and adjusted in accordance with the provisions of the law of 1885, which adjustment is now in force, and through which process were heavy, the same quiet business usual of late was transacted. Suddenly, shortly after 11 o'clock, the attack was begun, the Gould stocks being the particular object of attention. Manhattan was quickly marked down 15 to 18%. Missouri Pacific from 103% to 92, and Western Union from 75% to 67%. Rumors were circulated at the same time of a disagreement between Gould, Field, and Sage, and later that the following report of the death of the famous general.

The money market was not neglected, but rates were marked up 5/8 and interest. A tremendous selling movement began, which soon became panic. The drops were prices declined to fractions, and rates were continued to fractions, of 2 or 3 per cent at a time. The story in regard to Gould soon met a denial, and the bears were influential in stopping wild sales of securities. Other rumors which were set about, that the market was buying soon turned the tide of affairs. Recovery followed for all except a few of the conspicuously weak stocks, among which Manhattan and Richmond and West Point were most conspicuous.

Stocks were not shares to any great extent in the movement, which was confined to the leading speculative stocks of the day. The total business for the day was the largest for any day so far this year, amounting to \$67,070 shares. The entire active list is lower, and Manhattan is the only stock to fall below 100. The morning's break was the chief topic this evening among Wall-street men, who gathered in the up-town hotels after dinner, and the general feeling seemed to be that the panic and depression was only temporary, and that the market would soon take an upward turn.

**Heading Off Dominion Dodge.**

LOCKPORT (N. **SPORT.**

**The Great Chicago Derby to Be Run Today.**

**List of the Entries and the Favorites in the Great Race.**

**Yale Defeats the Pennsylvania University Crew.**

**Baseball in Various Parts of the Country—St. Louis, Baltimore, New York, Cincinnati, Metropolitan, Annapolis and Chicago the Winners.**

**By Telegraph to The Times.**  
CHICAGO, June 24.—The entries, jockeys, weights and first pools for the American Derby, to run tomorrow at Washington Park, are as follows:

Hindoo Rose Not known Weight. Betting.  
Miss Ford West 125 \$10  
Goliath ... 125 265  
Sally ... 125 265  
C. H. Todd Hamilton 115 50  
Fendon Spanier ... 115 90  
Ward ... 115 120  
Stoval ... 115 120  
Riley ... 115 65  
John Jones ... 125 120  
Montrose Lewis ... 125 120  
Terra Cotta McCarty ... 121 155  
Carroll Attwells ... 121 45  
Dante ... 121 170  
Brutus Unknown ... 118 9

Several horses may be withdrawn at the last moment. Corrigan may put Ulster in to compete, and Goliath, who was started back, may be withdrawn again. It is thought that Goliah would not start, and it was also rumored that the celebrated jockey, "Snapper" Garrison, was on his way from the East to ride Hindoo Rose. This mare has been freely backed in the books to win. The horse most generally fancied is Goliah, Miss Ford, Terra Cotta, Carey and Jim Gore.

**YALE'S CREW VICTORIOUS.**  
NEW LONDON, June 24.—The four-mile straight-away race between Yale and the University of Pennsylvania crews took place this evening, and Yale won easily. After the first start the boats were called back on account of Pennsylvania's lead, and the race was again started at 7:14:56. Pennsylvania dipping fast and hard at the rate of 34 strokes to Yale's 36. They passed the half-mile flag the Pennsylvanians' stroke was increased to 37 and Yale to 36. They passed the half-mile point at 7:15:55; they were then 100 yards behind, but by my a length. The second half was made in two minutes and seventeen seconds. Pennsylvania pulled ahead until they got the stern of their boat in front of the Yale's bow, and then the two crews exchanged places, Yale having the lead for the last two miles, but lost the race, the Pennsylvania coxswain not holding the shell on a straight course. He went fully half a mile further than was necessary, and Yale secured the lead and kept it to the finish. The Yale crew was the more powerful, and the two crews were evenly matched.

The official record is as follows: Hull, 39.3; Yale, 39.4; Penn, 39.5; Princeton, 39.6; Columbia, 39.7; Cornell, 39.8; Harvard, 39.9; Dartmouth, 40.0; Brown, 40.1; Princeton, 40.2; Columbia, 40.3; Cornell, 40.4; Harvard, 40.5; Dartmouth, 40.6; Brown, 40.7; Princeton, 40.8; Columbia, 40.9; Cornell, 40.10; Harvard, 40.11; Dartmouth, 40.12; Brown, 40.13; Princeton, 40.14; Columbia, 40.15; Cornell, 40.16; Harvard, 40.17; Dartmouth, 40.18; Brown, 40.19; Princeton, 40.20; Columbia, 40.21; Cornell, 40.22; Harvard, 40.23; Dartmouth, 40.24; Brown, 40.25; Princeton, 40.26; Columbia, 40.27; Cornell, 40.28; Harvard, 40.29; Dartmouth, 40.30; Brown, 40.31; Princeton, 40.32; Columbia, 40.33; Cornell, 40.34; Harvard, 40.35; Dartmouth, 40.36; Brown, 40.37; Princeton, 40.38; Columbia, 40.39; Cornell, 40.40; Harvard, 40.41; Dartmouth, 40.42; Brown, 40.43; Princeton, 40.44; Columbia, 40.45; Cornell, 40.46; Harvard, 40.47; Dartmouth, 40.48; Brown, 40.49; Princeton, 40.50; Columbia, 40.51; Cornell, 40.52; Harvard, 40.53; Dartmouth, 40.54; Brown, 40.55; Princeton, 40.56; Columbia, 40.57; Cornell, 40.58; Harvard, 40.59; Dartmouth, 40.60; Brown, 40.61; Princeton, 40.62; Columbia, 40.63; Cornell, 40.64; Harvard, 40.65; Dartmouth, 40.66; Brown, 40.67; Princeton, 40.68; Columbia, 40.69; Cornell, 40.70; Harvard, 40.71; Dartmouth, 40.72; Brown, 40.73; Princeton, 40.74; Columbia, 40.75; Cornell, 40.76; Harvard, 40.77; Dartmouth, 40.78; Brown, 40.79; Princeton, 40.80; Columbia, 40.81; Cornell, 40.82; Harvard, 40.83; Dartmouth, 40.84; Brown, 40.85; Princeton, 40.86; Columbia, 40.87; Cornell, 40.88; Harvard, 40.89; Dartmouth, 40.90; Brown, 40.91; Princeton, 40.92; Columbia, 40.93; Cornell, 40.94; Harvard, 40.95; Dartmouth, 40.96; Brown, 40.97; Princeton, 40.98; Columbia, 40.99; Cornell, 40.100; Harvard, 40.101; Dartmouth, 40.102; Brown, 40.103; Princeton, 40.104; Columbia, 40.105; Cornell, 40.106; Harvard, 40.107; Dartmouth, 40.108; Brown, 40.109; Princeton, 40.110; Columbia, 40.111; Cornell, 40.112; Harvard, 40.113; Dartmouth, 40.114; Brown, 40.115; Princeton, 40.116; Columbia, 40.117; Cornell, 40.118; Harvard, 40.119; Dartmouth, 40.120; Brown, 40.121; Princeton, 40.122; Columbia, 40.123; Cornell, 40.124; Harvard, 40.125; Dartmouth, 40.126; Brown, 40.127; Princeton, 40.128; Columbia, 40.129; Cornell, 40.130; Harvard, 40.131; Dartmouth, 40.132; Brown, 40.133; Princeton, 40.134; Columbia, 40.135; Cornell, 40.136; Harvard, 40.137; Dartmouth, 40.138; Brown, 40.139; Princeton, 40.140; Columbia, 40.141; Cornell, 40.142; Harvard, 40.143; Dartmouth, 40.144; Brown, 40.145; Princeton, 40.146; Columbia, 40.147; Cornell, 40.148; Harvard, 40.149; Dartmouth, 40.150; Brown, 40.151; Princeton, 40.152; Columbia, 40.153; Cornell, 40.154; Harvard, 40.155; Dartmouth, 40.156; Brown, 40.157; Princeton, 40.158; Columbia, 40.159; Cornell, 40.160; Harvard, 40.161; Dartmouth, 40.162; Brown, 40.163; Princeton, 40.164; Columbia, 40.165; Cornell, 40.166; Harvard, 40.167; Dartmouth, 40.168; Brown, 40.169; Princeton, 40.170; Columbia, 40.171; Cornell, 40.172; Harvard, 40.173; Dartmouth, 40.174; Brown, 40.175; Princeton, 40.176; Columbia, 40.177; Cornell, 40.178; Harvard, 40.179; Dartmouth, 40.180; Brown, 40.181; Princeton, 40.182; Columbia, 40.183; Cornell, 40.184; Harvard, 40.185; Dartmouth, 40.186; Brown, 40.187; Princeton, 40.188; Columbia, 40.189; Cornell, 40.190; Harvard, 40.191; Dartmouth, 40.192; Brown, 40.193; Princeton, 40.194; Columbia, 40.195; Cornell, 40.196; Harvard, 40.197; Dartmouth, 40.198; Brown, 40.199; Princeton, 40.200; Columbia, 40.201; Cornell, 40.202; Harvard, 40.203; Dartmouth, 40.204; Brown, 40.205; Princeton, 40.206; Columbia, 40.207; Cornell, 40.208; Harvard, 40.209; Dartmouth, 40.210; Brown, 40.211; Princeton, 40.212; Columbia, 40.213; Cornell, 40.214; Harvard, 40.215; Dartmouth, 40.216; Brown, 40.217; Princeton, 40.218; Columbia, 40.219; Cornell, 40.220; Harvard, 40.221; Dartmouth, 40.222; Brown, 40.223; Princeton, 40.224; Columbia, 40.225; Cornell, 40.226; Harvard, 40.227; Dartmouth, 40.228; Brown, 40.229; Princeton, 40.230; Columbia, 40.231; Cornell, 40.232; Harvard, 40.233; Dartmouth, 40.234; Brown, 40.235; Princeton, 40.236; Columbia, 40.237; Cornell, 40.2

## OUR NEIGHBORS.

**Orange and Vicinity.**  
AN ELECTRIC ROAD—NOTES.  
ORANGE June 23.—[Correspondence of THE TIMES.] Barrel Point (now called Olive Heights) and St. James are to be connected with the towns below by an electric street railway. The length of the proposed road will be from four to five miles.

Mr. Lockwood and family, also Mr. and Mrs. Rogers and Miss Harwood, have been rusticking at the coast.

Mrs. J. S. Baldwin, of Pasadena, with her daughter, Miss Isa, are in the valley, being called here by the severe illness of Mrs. Baldwin's father, Mr. W. E. Foster. The notes last week should have said Mr. Foster was in failing health instead of Mrs. Foster, as he was privy at that time.

Mrs. Dugay, a representative of a new journal, the "Pacific Fruit Grower," has been making a vigorous canvass through this valley for that publication.

Mr. Pixley is putting up a cottage at Arch Beach, and will soon move his family there for the summer.

Mrs. Emma Edmundson, a teacher of Santa Barbara, who is spending the summer vacation visiting Southern California, is now the guest of Mrs. Meacham.

H. P. Stone has sold his interest in the Water Development Company of Earham, to Mr. D. Hewes, of Tustin.

The Friend's Church, of Earham, is under way, and bids fair to be quite an ornament to the town.

Mountain View district was represented in the last batch of normal graduates at Los Angeles by Miss Iva Williams, and her friends here are justly proud of her high standing in that institution. Miss Lella Brown, also a member of the same graduating class, had the honor of composing and reading the class poem for the occasion. Pretty good for this valley. A.

**Alhambra.**  
DRAWING OF THE HALL-TRACT LOTS—LESLIE WILLIAMS IN LUCK.

ALHAMBRA (Cal.), June 23.—[Correspondence of THE TIMES.] The "official drawing" of the Hall-tract lots "single number, class A," took place in the new building on Garfield avenue shortly after 11 o'clock this forenoon.

In addition to the 88 eager holders of opportunities, about 150 people were present from Los Angeles, Pasadena and other places, a large number of ladies being interested spectators. Curiosity even got the best of many who have often been overheard to remark that they did not approve of nor countenance a lottery. Among these were several prominent church members, who like the goodly people who will not attend a circus unless it is a management attachment, evidently consider their participation in the lottery was a sufficient excuse for their being present at the drawing.

Taking pattern after the Louisiana State lottery, a revolving hollow cylinder was placed upon a table, from which a modest little girl enticed the sixty-nine numbered marbles. The timidity of the little miss did not permit of her being blindfolded, and in lieu of this, a black cloth was wrapped around the wheel, answering the double purpose of concealment of the marbles, and an emblem of mourning for those who failed to draw the first prize.

Leslie Williams, a resident of Alhambra, was the fortunate man who held first choice, and he very naturally chose lot 4, block A, on which the residence of Mr. Hall stands. Mr. Williams and his estimable wife are richly deserving the good fortune that has befallen them, and they showed their gratitude by presenting the little girl who presided over the wheel a crisp \$5 note.

As there were only sixty-eight disappointed participants, the affair was voted a success.

W. O. Swan and B. O. Clark, of Pasadena; A. S. Blackburn, of Alhambra; Col. Dobbins, of San Gabriel, and Mr. Ewing, of East Los Angeles, were a committee appointed to supervise the drawing.

**Riverside.**  
TROUBLESOME FRANCHISES — THE SEWER SYSTEM—NOTES.

RIVERSIDE, June 23.—[Correspondence of THE TIMES.] The duties of the City Trustee have been quite arduous of late. Petitions for franchises for new street-car lines multiply, and remonstrances from residents who want them run on the next street rather than their own come thick and fast. The granting of a franchise down Cyprus avenue still hangs fire, owing to the war of conflicting interests, not to say confounding selfishness. But although that street is too narrow, it will in all probability have the line run there. The last petition is for a double-track, flat-rail electric road on Seventh street, for which the petitioners offer \$20,000, provided they can have exclusive use of that street. It is evidently designed for the development of the country east of town, where extensive improvements are being planned. There must be something important going on there to warrant this undertaking.

The bids for the building of the lateral sewers on Seventh, Eighth and Ninth streets, and also the short lateral sewer in the alleys in the central blocks, were awarded yesterday. The competition was so sharp that a portion of the work was awarded to a San Bernardino company, of whom Mr. McDonald is the representative, and the remainder to McBean, of Gladdin & McBean, of Central California. These laterals will cost about \$13,000, and the total cost of the system put in will cost nearly \$30,000. This amount will be paid in cash upon the completion of the work. Riverside has not seen fit to issue bonds, like San Diego, to be offered without a bidder, but proposes to pay as goes in this matter. The sewer system will be complete as far as it goes, and is so arranged that it can be easily enlarged with the growth of the place.

Gage, the irrepressible optimist, declares that he bought 6000 acres of the choicest land in the Riverside Valley, it lying above and back from Foothills and the "head of the avenue." There are about 4000 acres more which water from his canals can reach, and which he claims he can find water for. He is not now running water from his wells, but has gobbled all the water in the river, regardless of how it will affect the old Riverside, Colton and West Riverside interests. The courts will doubtless have opportunity to adjudicate the matter.

Those who imagine that Riverside has reached the full development of which she is capable, are asked to consider the immense area, not of gravelly wash, with here and there a patch of fertile land susceptible of highest development into orchard and vineyard, but a territory large enough for a county of land as fine as any in the world for orange and fruit culture—land where there is no need of argument to convince one of its perfect adaptability, and where there is something more

than printer's ink with which to indicate it. Purchasers need not wait for "developments" of water, for it is here in sufficient quantity and from a permanent source. Riverside proper has 7500 acres already under water, with 4500 acres more within reach of canals. The present Gage system covers 4000 acres, all sold and being improved rapidly. The tract above Casa Blanca and Arlington, entirely out of the frost belt, aggregates about 10,000 acres. In the river bottom there is four or five thousand acres of moist land almost entirely undeveloped, but most admirable for regular farming, and which will come into demand now the growth in population provides a market for its products. All West Riverside are two or three thousand acres, with water ample for its irrigation, as good as the best for fruit growing. There are thus thirty odd thousand acres of the best fruit and farming land in Southern California within or immediately contiguous to Riverside. Then there is the rapidly-growing settlements of South Riverside and Rincon, with different soil and water rights, but sure to be important settlements, and which are likely to be tributary to the principal town. The most sanguine Riverside has never anticipated that the city he loves should rival San Francisco or Los Angeles in trade, or dreamed of her river improvements to endanger the commercial growth of San Diego, but he does look forward confidently to the time when Riverside will be the center of a fruit-growing country indeed of the world.

And a development like this is the soundest and safest upon which to permanently build, and will justify a still greater increase in the value of residence property in the vicinity of the city proper.

WALLACE.

10:30 p.m.	Lamanda Park	12:30 a.m.

IT IS DIFFERENT FROM ALL OTHER WORKS OF THIS KIND EVER PUBLISHED.

FIRST.—It teaches those who have never studied what the matter is when some one gets sick. All similar books tell what to do if you know what the disease is. THIS BOOK TELLS YOU HOW TO RECOGNIZE THE DISEASE, and then what to do for it. No other book published does this.

SECOND.—When a person is really attacked by a dangerous disease, it enables you to know the fact, and in such cases its advice is, "Send for a competent physician at once." In all ordinary cases, such as can be cured without

a doctor (and most of the ailments in a family are of this kind, if only you could recognize them), it gives full directions for treatment. The point is that it teaches you the difference between a dangerous and a trifling disease, and tells you when it is necessary and when it is not necessary to call a physician. No other book published does this.

THIRD.—It gives separated, and for each disease, the methods used by each of the different "schools of medicine," and in all cases the prescriptions are made by the most eminent men in their respective mode of practice. This makes the work specially suited to the needs of every family, no matter what school of medicine they prefer—Allopathic, Homeopathic, Hydropathic, Eclectic, or Herbal. NO OTHER BOOK PUBLISHED DOES THIS.

WE WILL SHOW YOU HOW IT DOES THIS

if you will call and see us.

Please read these endorsements of distinguished physicians which were sent to the publishers of this grand work:

Having examined the advance sheets of the work entitled "Our Family Physician," I can say that I find it accurate in its descriptions of diseases and reliable in its therapeutic department.

N. F. COOKE, M.D., Professor of theory and practice, Hahnemann Medical College.

I hereby certify that I have examined a work entitled "Our Family Physician," and find it to be correct in its diagnosis, and, in my opinion, worthy of the confidence of the public.

H. S. HANN, M.D., Professor of theory and practice, Burnett's Medical College, Chicago.

I have examined the advance sheets of "Our Family Physician." It gives me pleasure to recommend the work as correct in its mode of treatment of diseases, and it deserves wide circulation.

J. F. COOKE, M.D., Professor in Burnett's Medical College, Chicago.

After examining the publication "Our Family Physician," I can fully endorse its merits expressed by the above gentlemen.

R. A. GUNN, M.D., Professor of the Burnett Medical College.

The book contains a valuable chapter of symptoms, which will aid wonderfully in diagnosing diseases, and the proper remedies are given for Allopathic, Homeopathic, Eclectic, Hydropathic and Herbal.

Every family should have a guide to health to assist the family doctor.

not intended to take the place of the doctor in every instance, but to help you do everything possible in his absence.

—TO OUR OLD SUBSCRIBERS:

It is customary with newspapers to give premiums to new subscribers only; but the publishers of the MIRROR mean to reverse this old rule; they intend to do as well, at least

## VERONA B.

**SHE TAKES THE STAGE AS "THE TIMES" PROPHESIED.**

Her Peppery Lecture to a Small Audience in San Francisco—She Fours Hot Shot into Cousin LUCKY and the Reporters.

THE TIMES a couple of months ago announced exclusively that Miss Verona Baldwin had left this city for San Francisco to study for the stage. Miss Verona, it will be remembered, is the beautiful cousin of Lucky Baldwin, whom she shot and seriously wounded in San Francisco in 1888. She came here to make her affidavit to help Horace Bell in the libel suits which Baldwin had brought against him. In this affidavit she stated that Baldwin was first ruined and then persecuted her.

The statement that she was going upon the stage was received with some incredulity by the following from Thursday's San Francisco Chronicle shows that *Times* was right:

The announcement that Verona Baldwin would make her debut as a dramatic reader in a choice programme of readings and recitals drew many and sudden the Odd Fellows' Hall last evening. Most of the fifty people present were ladies who had been attracted purely to satisfy their desire to see a woman whose history is romantic and interesting. In seeing and hearing that the actress was not so pointed, for in conjunction with her readings, she exhibited the true state of her feelings concerning certain social institutions, and particularly the press, which she claims has grievously abused her. The audience, however, was composed of readers who were devoted to bitter vituperations against her, traducers, and the spontaneous outpourings of a heart fairly broken by trials and sufferings.

The debutee advanced before the footlights at half-past six o'clock, arrayed in a white brocaded satin dress trimmed with lace to match. The beaded bodice, which fitted her bust to perfection, was hidden in front by a plastron of white nun's veiling, fastened at the throat with a plain gold chain. Beyond this she wore a jeweled necklace, the only attempt at apparel being a corsage bouquet of pink rose. Her stage presence is good, her form perfect and her face beautiful, but beyond these attractions no claim to public recognition can be entertained by her.

After surveying her audience, Miss Baldwin, glancing at the reporters before her, said: "Yesterday was a day of jubilee to all the world because of one woman's arrival. Several years ago, when misfortune overtook me, I was the subject of ridicule, and people basely lied about me. The reporters followed me from place to place, even into the privacy of my bedchamber, where they tried to prove me to be a liar. They have not yet been able to accomplish it. I praise women who are known to be the mistresses of royalty; but when an honest American woman tries to make her way in the world, they laugh at and scorn her."

The debutee advanced before the footlights at half-past six o'clock, arrayed in a white brocaded satin dress trimmed with lace to match. The beaded bodice, which fitted her bust to perfection, was hidden in front by a plastron of white nun's veiling, fastened at the throat with a plain gold chain. Beyond this she wore a jeweled necklace, the only attempt at apparel being a corsage bouquet of pink rose. Her stage presence is good, her form perfect and her face beautiful, but beyond these attractions no claim to public recognition can be entertained by her.

JUDGE O'MELVENY.

The information against James Madden was dismissed on account of a fatal variance, but on motion of the District Attorney the defendant was held to answer a writ of habeas corpus.

Mrs. Dorothea Matthies was found to be insane, and was committed to Stockton.

JUSTICE AUSTIN.

The charge of grand larceny against John Holster was dismissed.

James McCloskey and Archibald Russ were fined \$50 each for petit larceny.

JUSTICE TAXED.

George Williams was fined \$6 for disturbance, and James Wilson, O. Bernard and George Murray, for a like offense, were assessed the same sum.

The case of James Madden, charged with assault to murder, was set for June 25th, at 10 a.m.

Henry Curry was fined \$5 for petit larceny.

INCORPORATED.

Articles of incorporation were filed yesterday in the County Clerk's office by the East Los Angeles Congregational Church. The objects for which this corporation has been established are to purchase real buildings, and make provision for the establishment of a Congregational Church in East Los Angeles. The number of trustees is three, and those elected for the first year are J. C. C. Harris, G. W. Woodward, David Jones, F. H. Howe and W. A. Kennedy, all of Los Angeles.

Articles were also filed by the Pilgrim Congregational Church of Pomona. The objects of this corporation are to promote and maintain the ordinances of the Christian religion in the town of Pomona. The number of directors to be five, and those elected for the first year are H. A. Parsons of Berkeley, and E. A. Padgham, E. M. Cox, S. O. Garlick and E. T. Palmer, of Pomona.

Articles were also filed by the Nadeau Townsite Company. The objects of this corporation are to buy, sell and deal in real estate, water rights, timber, and to build and run houses, hotels or other buildings; and to buy or lend money in connection with such business. The number of directors to be eight, and those elected for the first year are C. E. French, of Santa Ana, S. D. Newell, of Montebello, M. W. Wicks, James Campbell, C. N. Wilcox, E. A. Clarke and Charles Cassatt Davis, of Los Angeles. The amount of capital stock to be \$100,000, all of which has been subscribed.

HOTEL ARRIVALS.

At the St. Elmo: J. S. Mitchell, W. C. Brown, San Francisco; L. G. Thompson and child, Honolulu; I. H. Bell, Oakland; A. E. Banks, San Francisco; Mrs. J. M. Hunter, Miss Arnett, Santa Barbara; C. A. Pratt, Viscount; J. P. Wile, Mrs. C. French, Pomona; Capt. H. Flitz and wife, San Pedro; E. G. McLean, Merced; J. E. Ennis, Chicago; A. B. Jenkins, Springfield; C. S. Foggy, O. E. C. Love, Riverside; S. Brownstone, San Francisco; C. W. Hunt, Mrs. W. H. Hunt, Mrs. M. Humphrey, Mrs. Frank Humphrey, Mrs. Franklin Clinton, Mrs. W. O. Clayton, Santa Ana; M. L. W. Cullinan, Ventura; J. S. Keefer, J. Davis, Monroe; T. J. Long, Texas; H. G. Sturtevant, Covina; M. Baldwin, Mrs. C. Cole and wife, Chicago; Mrs. F. T. Pomery, St. Louis; Mrs. Brown, Mrs. McMahon and son, Kansas City.

AN EXTENDEO CUSPIDI.

Last evening, near the corner of Fort and Fourth streets, three well-dressed sportsman-like-looking men were arguing in a loud-voiced manner over some money affair, perhaps the division of spoils from a confidence "whack" when the tallest of the three struck a scimitar, when the others, following up this extemporization with an oath and a blow at the same man. For a moment it looked promising for a three-handed fight, but the efforts of the third man as peacemaker finally prevailed, and the trio marched down Spring street to a well-known sporting-house, into which they disappeared.

PULLMAN PASSENGERS.

The following Los Angeles people left for the North yesterday by Pullman:

By the 7:30 train—R. C. Woodworth, F. N. Pixley, J. Lowenthal, R. Herald, Jr., Miller, J. McDonald, Miss Work, Anna T. Miller, John W. Durr, C. A. Butler and J. C. Price.

By the 10:30 train—S. W. Stryker, Mr. Rose, E. Meyer, Miss Dillingham, Mrs. Montgomery, G. N. Eaton, D. B. Canfield and Mrs. Bell.

ST. VINCENT'S COMMENCEMENT.

The annual commencement exercises of St. Vincent's College will be held in Armory Hall next Wednesday evening, at 8 o'clock. Following is the programme:

Oration, "Southern California" — Boyle Workman. Alumni Oration, "The Dignity of the Law" — Mr. Orton.

Address, "Socialism" — J. B. Dockweiler, Address—Rev. P. Verlaque.

UNION SERVICES.

The young people's societies of the various churches in the city will hold union services tomorrow (Sunday) evening in the First Presbyterian Church, corner Second and Fort streets. Services begin sharply at a quarter before 6 and close at 7:15 sharp. All young people are cordially invited to attend.

THE WOMAN'S CLUB.

The meeting of the Woman's Club at Armory Hall this afternoon will be in charge of the literary committee. Five-minute papers on minor writers will be read by Miss Collier of Pasadena; Mrs. Eva Mitchell Cook and Dr. Dorothea Lumina.

A GOOD MOVE.

The officers of the People vs. James Madden came up for trial in Judge O'Melveny's court yesterday, but, after the jury was impaneled and the first witness placed on the stand, it was discovered that the evidence to be given was at variance to the information filed, consequently, on the motion of District Attorney Dupay, the jury was dismissed and the indictment withdrawn, with permission to proceed *de novo*.

A LEGAL SLIP.

The case of the People vs. James Madden came up for trial in Judge O'Melveny's court yesterday, but, after the jury was impaneled and the first witness placed on the stand, it was discovered that the evidence to be given was at variance to the information filed, consequently, on the motion of District Attorney Dupay, the jury was dismissed and the indictment withdrawn, with permission to proceed *de novo*.

THE CHURCH OF THE UNITY.

A large and enthusiastic meeting of the ladies of the Church of the Unity was held last evening at the spacious residence of Mrs. D. G. Stevens, corner of Sixth and Olive streets. The ladies resolved to cooperate heartily with the gentlemen in building and furnishing a church for their great congregation. It is their purpose to have by far the finest organ in Southern California, and to that end they decided to hold in the autumn a "carnival." An executive committee was appointed to prepare plans and lay out the work, and all the preliminary steps were taken for a vigorous prosecution of the scheme.

THE TIMES-MIRROR PRINTING AND BINDING HOUSE.

There is nothing in the Printing and Binding line which the Times-Mirror Printing and Binding House is not prepared to execute in a manner equal to that of any office in the State. All printing, binding, bookbinding, paper, etc., is done in this office. The Times-Mirror Printing and Binding House is guaranteed to be equal to that done in San Francisco. Prices! KINGSLY & BARNES, Managers.

## CHURCH SOCIAL.

## A Pleasant Affair at the First Congregational.

The First Congregational Church was the scene last evening, of one of the most pleasant and successful ice cream festivals and entertainments held this season, and was well patronized by the members of the church and their friends, together with a number of visitors.

The affair was arranged by and given under the auspices of the Young Ladies' Missionary Society and the Society of Southern Gleaners, both of which societies are composed of young ladies belonging to the church in which the festival was held. The money raised will be turned over to the missionary fund of the church.

Previous to the ice cream social a remarkably well-arranged and appropriate entertainment was given, commencing with a speech made by the Misses Maynard, followed by a service entitled "The Plea of Nations," in which eleven young ladies took part, each costumed to represent a nation, as follows:

"Great Britain"—Winnie Wells.  
"France"—Mabel Boutwell.  
"China"—Carrie Young.  
"Chile"—Kittie Mills.  
"Africa"—Fannie Holmes.  
"North American Indian"—Hattie Gower.  
"India"—Jenny Sheldon.  
"Australia"—Kitty.

"Syria"—Jenny Granans.

This part of the programme was received with loud applause by the audience, which also gave a hearty cheer to the girls in Chile, who were the only ones to receive a standing ovation.

Miss Sheldon then gave a vocal solo, in which her voice showed careful cultivation; and the ice cream and cake part of the affair followed, ending at quite a late hour last night after scoring a grand success in every particular.

## THE COURT.

In Judge Cheney's court yesterday on the trial of a man accused of the killing of his wife, Mrs. Leon, Tim was dismissed on motion of the District Attorney.

The term-trial jury was discharged for the session, and an order was made for summoning thirty persons to serve as grand jurors, to attend July 5th, at 10 a.m.

## JUDGE O'MELVENY.

The information against James Madden was dismissed on account of a fatal variance, but on motion of the District Attorney the defendant was held to answer a writ of habeas corpus.

## JUDGE GARDNER.

Mrs. Dorothea Matthies was found to be insane, and was committed to Stockton.

## JUSTICE AUSTIN.

The charge of grand larceny against John Holster was dismissed.

James McCloskey and Archibald Russ were fined \$50 each for petit larceny.

## JUSTICE TAXED.

George Williams was fined \$6 for disturbance, and James Wilson, O. Bernard and George Murray, for a like offense, were assessed the same sum.

The case of James Madden, charged with assault to murder, was set for June 25th, at 10 a.m.

Henry Curry was fined \$5 for petit larceny.

## INCORPORATED.

Articles of incorporation were filed yesterday in the County Clerk's office by the East Los Angeles Congregational Church.

The objects for which this corporation has been established are to purchase real buildings, and make provision for the establishment of a Congregational Church in East Los Angeles. The number of trustees is three, and those elected for the first year are J. C. C. Harris, G. W. Woodward, David Jones, F. H. Howe and W. A. Kennedy, all of Los Angeles.

Articles were also filed by the Pilgrim Congregational Church of Pomona. The objects of this corporation are to promote and maintain the ordinances of the Christian religion in the town of Pomona. The number of directors to be five, and those elected for the first year are H. A. Parsons of Berkeley, and E. A. Padgham, E. M. Cox, S. O. Garlick and E. T. Palmer, of Pomona.
